## FRIENDS OF CHILDREN'S HOSPITAL RECEIVES \$15K DONATION

Jackson, Miss. – April 28, 2022: Today, more than 180,000 sick and injured Mississippi children are feeling extra loved—thanks to Paul Moak Subaru's \$15,000 “Share the Love” event donation presented to Friends of Children's Hospital.

The donation to Friends of Children's Hospital was part of a nationwide initiative to give back to causes that touch the hearts of communities around the country, and locally, between November 2021 and January 2022. For each new Subaru purchased or leased, Subaru of America donated \$250 to the children's hospital.

“Thank you, Paul Moak Subaru, for making a difference in the lives of the thousands of Mississippi children who receive care from Children's of Mississippi each year,” said Rochelle Hicks, Friends executive director. “This incredible act of generosity helps provide life-saving medical care and state-of-the-art treatment facilities and, ultimately, is an investment in our state's most precious resource—our children. We are so grateful for the continued support.”

“At Paul Moak Subaru, we believe in Friends' of Children's Hospital's mission to support the patients and families at our state's only hospital for children, and we are proud to support such an amazing local cause,” said John Scarbrough, Paul Moak Subaru General Manager and Friends of Children's Hospital Board Chairman.

Donations, like the one from Paul Moak Subaru, help fund patient and family care projects, such as the recently delivered Easter baskets filled with goodies and toys, as well as capital projects, like Friends \$20M pledge toward the recently completed Joe and Kathy Sanderson Tower.

Friends of Children's Hospital, founded in 1989 by a group of dedicated volunteers from across the state, supports Mississippi's only children's hospital by driving fundraising, growing voluntarism and building awareness. Since its inception more than 30 years ago, the nonprofit organization has raised nearly \$30 million to purchase state-of-the-art equipment, construct new facilities and provide vitally important services for all pediatric patients.
